

To Whom It May Concern:

I have heard about your “Localism” campaign, which will give Low Power FM stations priority over FM translator service. I am against this because I listen to a FM translator called AIR 1, which is heard on 88.9 FM in my area. AIR 1 serves me as a local resident of the community here because it gives me the music I love to hear. I believe that, as a Christian, I need to listen to only Christian music, and AIR 1 provides me with that option; also, as a completely listener supported organization, AIR 1 plays no commercials. This is another big plus.

If AIR 1 were to be displaced by an LPFM broadcaster providing other programming, my local community would lose a family-friendly, positive station that affects many lives. I believe that AIR 1 is in the public interest because I have heard from many people who are tremendously blessed by AIR 1’s programming; there are many instances where AIR 1 helps to change people’s lives for the better, which will result in a better community and a better world.

Please don’t take my AIR 1 station away.

Sincerely,  
Amy Miller
